

15th Annual T-Cell Lymphoma Forum

June 6-8, 2024

Hilton La Jolla
Torrey Pines,
La Jolla,
California, USA

SAVE THE DATE

Registration Opens in January

The **15th Annual T-cell Lymphoma Forum** is an accredited two-and-a-half-day meeting focusing on the latest information on novel agents and treatment approaches. The Forum provides a composite platform to facilitate progress in TCL research by addressing the hurdles that have confronted oncologists and ultimately paves the way for improved outcomes for patients. The comprehensive agenda includes the most relevant topics that will deepen your understanding of these complex diseases and impact your care of patients today.

Target audience:

This course has been designed for all clinicians and scientists with an interest in T-cell lymphoma, including physicians and other healthcare professionals practicing in hematology, oncology, and related fields.

Topics include:

- Epidemiology and Classification
- Molecular Biology and Pathogenesis
- T-Cell Lymphoma Subtypes
- Management and Treatment
- Cutaneous T-Cell Lymphoma
- International Guidelines
- Industry Innovations
