

GOOD SCIENCE
BETTER MEDICINE
BEST PRACTICE

Program (as of 03.04.2023)

June 10

- 13:15 *Registration*
- 13:45 **Introduction to the course**
E. Zucca, CH
- 14:00 – 16:45 Essential requisites before attending this course and the ICML**
Chair: E. Zucca, CH
- 14:00 **Basics of B-cell lymphoma biology**
L. Pasqualucci, US
- 14:45 **Basics of Hodgkin Lymphoma biology**
R. Kueppers, DE
- 15:30 **Basics of peripheral T-cell lymphoma biology**
W. Zhao, CN
- 16:15 **Clinical implications of the updated lymphoma classifications**
R. Advani, US
- 16:45 *Coffee break*
- 17:15 Workshop sessions I (4 groups rotating)**
- Group 1: **Lymphoma pathology for clinicians**
L. De Leval, CH
 - Group 2: **Lymphoma in pregnancy**
F. Peccatori, IT
 - Group 3: **Lymphoma genomics for clinicians**
S.. Ferrero, IT
 - Group 4: **Clinical use of CLL biomarkers**
T. Zenz, CH
- 18:00 End of Day 1

June 11

08:45

Workshop sessions II (4 groups, rotating)

Group 4: **Lymphoma pathology for clinicians**

L. De Leval, CH

Group 1: **Lymphoma in pregnancy**

F. Peccatori, IT

Group 2: **Lymphoma genomics for clinicians**

S. Ferrero, IT

Group 3: **Clinical use of CLL biomarkers**

T. Zenz, CH

09:30 – 11:30

Immunotherapy

Chair: D. Rossi, CH

09:30

Principles of lymphoma immunology and rationale for new immunology treatments

M. Shipp, US

10:00

Bispecific monoclonal antibodies: the new frontier?

M. Hutchings, DK

10:30

Coffee break

11:00

CAR-T cell therapy: Where do we stand, where will we go?

U. Novak, CH

11:30 – 12:15

Special lecture 1 – Lymphoma staging: Current principles and unmet needs

B. Cheson, US

12:15

Lunch

14:00 – 16:00

Main indolent Entities: the state of the art

Chair: TBC

14:00

Marginal Zone Lymphomas

E. Zucca, CH

14:30

Waldenstroem Macroglobulinemia

B. Gerber, CH

15:00

Chronic lymphocytic leukemia

J. Seymour, AU

15:30

Follicular Lymphoma: front-line chemo or chemo-free?

S. Luminari, IT

16:00

Coffee break

16:30

Workshop sessions III (4 groups, rotating)

Group 3: **Lymphoma pathology for clinicians**

L. De Leval, CH

Group 4: **Lymphoma in pregnancy**

F. Peccatori, IT

Group 1: **Lymphoma genomics for clinicians**

S. Ferrero, IT

Group 2: **Clinical use of CLL biomarkers**

T. Zenz, CH

17:15

End of Day 2

“State of the Art in Malignant Lymphoma”

June 10-12, 2023
Hotel De La Paix, Lugano

**ICML-ESMO
Full-immersion
Course**

Preceding 17-ICML
June 13-17, 2023

International
Conference
on Malignant
Lymphoma
ICML

GOOD SCIENCE
BETTER MEDICINE
BEST PRACTICE

June 12

08:45

Workshop sessions IV (4 groups, rotating)

Group 2: **Lymphoma pathology for clinicians**

L. De Leval, CH

Group 3: **Lymphoma in pregnancy**

F. Peccatori, IT

Group 4: **Lymphoma genomics for clinicians**

S. Ferrero, IT

Group 1: **Clinical use of CLL biomarkers**

T. Zenz, CH

09:30 – 12:15

Unmet needs – Part 1

Chair: E. Zucca, CH

09:30

Treatment of relapsing/refractory follicular Lymphoma

G. Salles, US

10:00

DLBCL subtype-specific approaches?

L. Sehn, CA

10:30

Coffee break

11:00

Unmet needs in Hodgkin lymphoma

P.W. Johnson, UK

11:30

Peripheral T-cell lymphomas

S. Horwitz, US

12:00

Special lecture 2 – Modern designs of clinical trials

A. Stathis, CH

12:45

Lunch

14:00 – 15:30

Unmet needs – Part 2

Chair: L. Sehn, CA

14:00

High-grade B-cell NHL

A Davies, UK

14:30

Primary and secondary CNS involvement

K. Cwynarski, UK

15:00

Mantle cell lymphoma

M. Dreyling, DE

15:30

Special lecture 3 – How ctDNA can be used to diagnose and manage lymphomas

D. Rossi, CH

16:15

Course evaluation
